ALL ABOUT ME AND WHAT I LEARNT AT AKIRACHIX

ABOUT ME

My name is Emeline Niyogisubizo, I a m from Rwanda. I have been at AkiraChix for 3 weeks now, and since I came I feel like a whole different person. For example, back at home I used to wake up around 10am but now I am surprised at how I am waking up at 5am. Not only that before I came to AkiraChix I was just a girl with vision and dreams but without putting effort in my vision and dream, but now I really want to do my best and be my best self so I can reach my dreams and become an independent woman.

WHAT I LEARNT AT AKIRACHIX
- FRONTEND MOBILE
  -I learnt about Html
  -I learnt how to create a web
  -I learnt how to deploy my website
  -Learnt to pull reques
  -i Learnt how to use the terminal

- UI/UX DESIGN
  -Principles of design
  -Elements of design
  -Making lesos
  -Combining shapes
  - Color wheel

- BACKEND MOBILE
  -Using Kotlin
  -Using Github
  -Using Terminal
  -Types of data type
  -Creating a GitHub account

- DAS
  -Computer binary system
  -Computer parts
  -Input-process-output process
  -Proper ways of handling a computer
  -

- QUALITY ASSURANCE
  -what is QA
  -What is SDLC
  -V model
  - Agile model

-Waterfall model
